For decades we are trusted partners for sports shops trade with high demands on:

- Function
- Design
- Quality

We pay close attention to innovations in the training for new trends and developments in sports medicine. Accordingly, we choose our manufacturers and products. We maintain our high standards of quality for a good price performance ratio always faithfully. Therefore, we have been enjoying the trust of our business partners for decades.

Under the brands

**deuser®**  
**silverton®**

we produce our lines of training equipment, such as

- The Original Deuserband
- Deuser Physio Series
- Deuser mats
- Silverton fitness-, weightlifters- and bodybuilding gloves
- Silverton fitness- and force articles

Products for the targeted training of individual muscle groups, as well as for the total body workout.

**Our quality products are the ideal training aid.**

*Fitness & Health are expressions of happiness and success.*

They combine fitness and balance and promote an equilibrium of strength, endurance and stamina. The success of this strategy convinces annually thousands of loyal sports retailers, sports physicians and therapists.

Our company is certified according to the quality management system DIN EN ISO 9001:2015.
News 2018

"Training to go"
Our new training app

With our new training app you can create your personal training plan. It shows the most effective exercises that can be implemented with the help of our Deuser products. The intensity of the exercises can be increased gradually. The app is very beginner friendly. It offers both individual workouts for muscle building and stretching exercises to improve mobility. So it’s something for everyone. Furthermore, the app was designed for the iPhone as well as the iPad.

New Exercises in our training app:
Get your own home gym!

**Fitter, stronger, slimmer!**

This is the very essence of the program by best-selling authors Mike Diehl and Felix Grewe. A wide variety of bodyweight and calisthenics exercises forms a diversified training concept, which everybody can perform, independently from their current personal state of fitness, at home.

The only requirements for this functional and health-oriented training in your own “home gym”, besides the athlete’s own body, are dumbbells, Deuser® Bands and the classic exercise balls.

19.6 x 25.4 cm, Paperback, ca. 350 photos, illustrations and tables; in color, 200 pages

deuser® band therapy

This band was specifically designed for physiotherapy and rehab and is distributed exclusively by Deuser Sports.

The advantages:
- Comfortable grip, extremely durable, latex-free
- no agglutinating (doesn’t have to be powdered after usage)
- chlorine-resistant, therefore ideal for aqua therapy

Available in 5 resistance levels, width: 10 cm, 20 m roll

Weight training

silvertone® multi gym

The ideal upper body training device.
- Quick assembly on the door frame
- For door frames of 60-80 cm width
- No fixing material necessary
- All-steel construction

The multi gym transforms the door frame into a multifunctional exercise device. It can be used for chin-ups, push-ups, abdominal muscle, arm and shoulder exercises. Multi Gym amplifies muscle tension for biceps, triceps, chest, shoulder and back.

Max. user weight: 110 kg

Mobility and Balance

deuser® board

The all-rounder for effective coordination and balance training. The Deuser board is the ideal device for your daily workout at nearly any age. Only 10 minutes of training a day will ensure a correct posture, agility, and step security. The Deuser board trains playfully easy abdominal and back muscles, improves the coordination and strengthens the ligamentous apparatus. Furthermore, the Deuser Board can boost athletes performance and prevent injuries.

- Building a healthy posture
- Training of abdominal and back muscles
- Strengthening of the band apparatus of ankle, knee and hip joints

Material: oiled beechwood, multiplex
Content: Disk 46 cm Ø, Airball, board for one-legged stand, instructions included

Max. user weight: 150 kg

Made in Germany
**deuser® wheel**

For yoga beginners and advanced practitioners. Yoga and fitness exercises can be extended with the new Deuser wheel. It can be ideally integrated in Yoga exercises. With this training device, stretching exercises in various parts of the body can be deepened and intensified.

The Deuser Wheel helps beginners to slowly advance to difficult positions. Advanced practitioners will be able to deepen individual positions, so that the training is more effective. Due to the low weight the durable wheel can be taken anywhere.

- Stretching for yoga and pilates exercises
- Increases the mobility of the entire body
- Allows more yoga variations
- Tool for easier execution of exercises

Max. user weight: 300 kg

The back of the hand of the gloves consisting of stretch-polyester is highly breathable but also improves the flexibility and fit of the glove. To protect the hands during the exercises the fabric at the thumbs is double reinforced, the palms are vested with a double leather insert and the fingers are polstered and strengthened with leather. An adjustable wrist closure ensures a comfortable fit and the short length of the fingers provides a natural grip.

Material: 60% polyester, 40% suede leather

Durable stretch inserts on the back of the hand and between the fingers not only improve flexibility and fit but also the ventilation of the glove.

The leather insert improves the wearing comfort and the specific length of the fingers provides a natural grip. Furthermore the gloves are equipped with a sturdy pull-off system.

Maximum Martial Arts is the official distributor for Dollamur mat products. Dollamur Flexi-Roll Mats – easy, fast, flexible – train anytime, anywhere.
Our exclusive Flexi-Roll® feature, now standard on all Dollamur wrestling mats, makes laying, rolling and transporting your wrestling mat easier than ever.

This revolutionary system allows a single person alone to roll out a section in less than 30 seconds and an entire mat, e.g. 6mx6m, in less than 10 minutes. Flexi-Roll® mats are made with high-performance sports foam and durable 813 g / m² vinyl surface.

- Fast and easy execution
- High performance sports foam for exceptional shock absorption
- Indestructible connection of the foam layers
- Thick, durable, antimicrobial vinyl in many colors

The Flexi-Connect® mat replaces mat tape and offers an unique flexibility. The patented and under patent protection system has revolutionized the mat industry with a built-in velcro that reduces your assembly and disassembly time to just a few minutes. You have the option of adding the Flexi-Connect® system to every mat project. Ideal for training and tournaments.

- Tape-less system with built-in Velcro
- Comfortable, safe and easy
- Seamless surface to reduce the risk of injury, in contrast to columns in classic tatami and puzzle mats
- Reduces the setup and dismantling time to minutes
- Save time and money on this long-term investment
WASHABLE BOXING GLOVES

TRAIN WASH DRY REPEAT
Just because you were sweating in your last workout, you shouldn’t suffer from your sweaty, stinky gloves in your next training.

Just train with your freshly cleaned Century Strive gloves.

Boasting new, innovative features, the Torrent bag is one of our best freestanding bags yet! Torrent uses a patented three-part system to absorb impact, making it less likely to tip over. This also reduces the stress on the striker’s hands and joints.

The Torrent is simple to assemble, with a smaller base that takes up less space and makes it easy to move on and off the floor.
deuser®SYSTEMS
Textile Elastic Components
Made in Germany
Since the foundation more than a 100 years ago, the focus of our company is directed towards the production of textile elastic components. This includes rubber cables, rubber cords and rubber strings.

Equipped with great professional competence, we provide manufacturing solutions with the highest level of quality, harmonized with your individual requirements for diverse applications. Whether simple or sophisticated – our products are characterized by a high resilience and a high durability. We are always open for your requests and take our time for your ideas.

In dialog from the beginning on:

Quick access to your direct contact person.
Rubber Cables – Diversity in Design and Application

One rubber cable is not like another! On the basis of the more than 150-year-old art of braiding, we are able to offer more than 100 different articles ranging from 1 mm to 20 mm in diameter. Depending on the application they differ mainly in the force/elongation characteristic. Furthermore, we utilize braiding materials in various colors and color combinations. Hereby every product receives its individual design.

Our portfolio includes:
• Rubber cables, elastic cables
• Rubber cords, elastic cords
• Expandables
• Rubber strings, elastic strings
• Expander cords
• Expander cables
• Emergency-opening-cables for automatic doors
• Compensating ropes
• Bungees, bungee cords
• Rubber bands, elastic bands
• Sports expanders, tubes

Additionally, we offer heavy duty rubber cables with an extra protection against abrasion and damages, which are often used e.g. to substitute metal springs in the automotive industry.

Gladly, we offer you our diverse selection of rubber cords, rubber cables and elastic cables also by the meter, spooled or coiled.
Due to the variety of potential applications of our rubber cords, we offer a wide range of metal and plastic mounting methods. With our specialized machines we create a connection system, which offers a maximum of strength and service life.

Our particular strength is the individual assembly of our products – also in low volume.

Our high quality, resilient rubber cables are utilized for various technical applications. Hereby we entirely focus on the fast and reliable development of customer-specific solutions for a reasonable price.
Our Safety Consciousness

Quality is something we live by in every stage of production. This is an aspiration we feel obliged to. Constant production examinations ensure a perfect job – to you and to us. Our internal quality management frequently controls our products. On your request, we are able to issue appropriate test certificates.

We manufacture according to the current quality and test standards as well as the current VDA regulations. The approval of those efforts is documented in the certification of ISO 9001.

Our company philosophy is focused on this high level of quality and the customer’s satisfaction.
Trivia About Our Elastic Products

Textile base materials applied:
Elastodiene:
Elastic core: rubber cable consisting of single natural rubber threads (made from latex milk), flexible from +/- 0° Celsius (32° Fahrenheit) up to + 70° Celsius (158° Fahrenheit)

Textile braiding materials applied:
Polyester (PES)
Polypropylene (PP)
Polyethylene (PE)
Polyester flame-resistant (PES CS)
Metal threads, conductive
Dyneema, Aramid etc.

Rubber-specialties:
Special Natural Rubber – flexible down to temperatures of -20° Celsius (-4° Fahrenheit)
Elastodiene in various burning rates up to flame resistant (FR), non-dripping material;
Neoprene following MVSS 302 (automotive norm). The different elongations of our rubber cables are summarized in a single data sheet, which we will happily provide per your request. We gladly answer any following technical questions that you have so please do not hesitate to contact us.
Application examples

Fix, stretch, spring, pull –
there nearly is no limit to the variety of applications. Because as diverse as our customers are the purposes of our rubber cables. Our flexible solutions can be found in various industries and products:

Whether in sports, in medical rehab, advertisement, as fixation of tarpaulins even for technical special duties in the industrial sector, the range of different applications proves the importance and the reliability of our products.

Additional Delivery Program

Nets for automobiles, buses and trucks

Nets with frames          automobiles, coaches, trucks, caravans, motorboats, yachts, boats
